### **REDUCED PRICE FROM 180.000 €!**

We are offering this semi-detached house which is located on the shore of a small fishing village on the island of Solta.

It is situated 5 meters away from the harbour wall, where the local fishing boats are moored up in the clear water.

The house has two floors, with a total floor area of 60 m2, and the south-west orientation.

It was completely reconstructed in compliance with all conservation requirements and instructions. When the construction work was undertaken only high quality and authentic natural materials were used.

The interior of the house is completed to a rough standard, ready for the fine interior decorating to begin.

The house is very much in the village centre with shops, bars and coffee shops all nearby.

The ferry port is about fifteen minutes drive.

Solta has regular ferry and ship lines with Split throughout the year.

For any questions or to see this or similar real estate on the island, we are at your service.
