Opis nemovitosti

We have this excellent building land plot with beautiful sea views in an attractive location in Primosten.

It is located in the village on a very pleasant and gentle slope with a magnificent view of the sea and the islands off the shore which make up the Primosten archipelago.

The land is cca 1,200 m², and in front of the plot it is not possible to build, so this unique view of the sea will always remain.

At only 80 meters there is a beautiful natural beach, safe and clean, which is associated with the town.

The land is south oriented.

Price at €250/m²

The centre of the village with the cafes, bars and a variety of shops is located 350 m.

It could be a great investment property or 2 objects in a great location.

For further information please contact our office and speak to one of our agents.
