## Opis nemovitosti

---

Investment opportunity on the island of Korcula.

House in roh-bau phase.

This house consists of a big garage on the lower ground floor, ground floor, first, second floor and gallery.

Each floor could be separated and that way be sold as separate unit, however, in this phase the house could be done as a nice, modern villa with big and spacious terraces.

At this stage it is possible to do inside layout remodeling.

The house is 480 sqm and it is on the land lot of 600 sqm.

It is close to the sea, center and town of Korcula.

The island of Korcula is known as „the green island“ and new sea plane connections are making this island more and more desirable location.
