For sale we have this house on two floors located in a charming inland village on Hvar island.

The house has 64 sqm in footprint, but the renovation works have already commenced, extending the footprint size to 105 sqm.

Once renovated, the house would have about 210 sqm internally in total, as shown in the footprints.

Garden plot (304 sqm) is co-owned and it has enough space to fit the pool.

The property features lovely views over the village and nearby hills.

The price refers to current state.

However, the seller offers the possibility to perform the renovation works until the end at extra cost.
