## Opis nemovitosti

---

We have this sensibly priced building land on the island Ciovo that is blessed with long sea views.

The distance to the nearest beach is approx. 90 meters down a direct track and the beach at this point is pebble and the water clear and safe.

Ciovo is connected by a bridge to the city of Trogir and the construction of a second bridge is well under way to ease traffic problems on/off Croatia's most popular holiday island.

It is a popular destination because of the beautiful beaches, crystal clear waters and proximity to the international airport.

The building Land area is 578 m2 and has a rectangular shape.

It has a direct access road and all necessary infrastructure is nearby.

Right up to this plot is another big land which is not buildable area so the sea view from the selling plot can not be obstructed.

The advantage of land is near the towns of Trogir and Split both World Heritage Sites and off of immense to tourists, which are among the most popular destinations in the country.

Contact us for more information and the possibility of building.
