### Renovation project

We have this attractive and substantial three floor house overlooking the sea, ready for rebuilding and renovating from top to bottom!

It is situated in an a small village inland, off the popular tourist trail, so would be an amazing project for anyone preferring the peace of the island interior to the coast would find this property an absolute haven - and good value.

All the infrastructure (electric etc) is already adjacent to the property and parking close by.

Distance from the sea is 3 km, near the south side of the island.

Please contact the Hvar office and we will arrange a viewing for this and similar opportunities.
