## Opis nemovitosti

---

Stone house for renovation, in the center of Kastela.

The house consists of three floors, each of 25 m2 of living area.

The house is only in the back part connected to the neighboring house, which makes it practically detached.

According to the old floor plan, the house consists of 3 bedrooms and 2 smaller bathrooms, but that can be rearranged in the renovation process.

On the top floor there is a small balcony, with a view of the surrounding houses, which is a rarity in the old part of Kastela.

The house needs renovation, currently only one small room has been renovated.

It is located in the center, not far from all necessary facilities, sea and beach.
