Immobilienbeschreibung

The family house is situated in the idyllic village, only 3 km from Jadrija, and 5 km from the center of Sibenik.

The property is placed on a land area of 1678 m², a total living area is 200 m² (with accompanying apartment building).

The main building consists of basement (70 m²) and three-bedroom flat (three bedrooms, kitchen, dining room, bathroom, toilet, large living room, porch, terrace).

Total floor area is 100 m².

The house is air conditioned, has wood stove and central heating.

Beside the house is a small auxiliary building of 39 m², consisting of a small kitchen, dining room, bathroom and bedroom terrace with a beautiful stone enclosed barbecue.

Because of the size of the plot there is a possibility to build a pool.

The property is ideal for family living all year round, or for rural tourism.
