Immobilienbeschreibung

Rare and exciting opportunity to buy a substantial first line building plot in the first line to the sea.

The plot is a good shape, sloping with a stunning view of what is almost a small private bay.

There is a minor road between the sea and the plot but is access to only a few neighbouring houses.

The plot is surrounded by Mediterranean shrubs, herbs and pine trees.

It is located on the edge of the village, with just a few houses nearby.

The village centre is only five minutes' walk where there is a shop, a bar and a restaurant.

All the infrastructure is next to the plot.

5 km from the ferry port.

For further information, please contact our CPS - Brac office.
