## Immobilienbeschreibung

---

We are pleased to offer this building project.

It is a dilapidated old agricultural building which sits on a land plot of 300 m2 with the dimensions of the house 30 m2.

The property is set among old farmed olive groves which have become overgrown with the island's natural Mediterranean plants, mostly slow growing shrub and herbs.

From the land there is a clear view of the sea.

It has access by a car, and water and electricity supplies are close.

The village is inland, 2 km from the sea, on the south side of the island.

Permission will be allowed for a modest extension and outside improvements such a swimming pool, but a large building project would most likely be rejected.

For further information, please contact our Hvar office.
