## Immobilienbeschreibung

---

Detached house for renovation on a plot of 500 m2.

The house consists of ground floor and one upper floor.

The ground floor is ideal for making a small studio apartment. On the upper floor there are currently three bedrooms, a kitchen, a living room and two bathrooms.

There is a possibility of lifting the roof, and in that case, the house would have sea view.

In the garden in front of the house there is enough space to build a large pool.

The house needs complete renovation.

The plot has vehicle access, and all infrastructure is present.

For any additional questions please contact our CPS office on Hvar.
