Opis nemovitosti

We are offering this rare opportunity to buy a seafront building plot of 918 m2, on the northern side of the island of Korcula, west of the town.

The plot comes with a project and all the documentation, ready to build a state-of-art modern villa.

It is blessed with beautiful views of the sea and the channel, and set among the natural woods and nature of the island.

It is located just 10 m from the seashore, near the beach and small stone jetties in an area with amazingly clear and safe water.

On the land area of 1028 m2 there is the opportunity to build a stepped shape building, using the natural sloping geography of the hill.

There is an access road directly to the plot, and electricity is located 20 m, and water is 10 m.

Lumbarda is 3 km away, and the town of Korcula 10 km.

The international airport in Dubrovnik is 135 km.

For further information, please contact our office in Split, and we can arrange a visit to the location and discuss building plans/costs etc.
