## Opis nemovitosti

---

The stone villa, known as the Villa Makale, is situated in the old city of Zlarin (on Zlarin Island), approximately 50 m away from the sea, next to the small harbour.

Between the sea and the building there just two rows of houses and a children's park.

The exact time of the construction of the building is hard to tell; it could only be guessed, as sometimes between 18 and 19th century.

Zlarin itself has a long history and it's well-known for its corals and idyllic scenery of the Island's landscape and architecture.

Villa's covering the plot area of around 400-450m<sup>2</sup> including main house and 3 smaller houses besides it, all in all over 400m<sup>2</sup> of potential living space.

The villa needs total renovation.
