Cena	

Opis nemovitosti

We are pleased to offer this NON COASTAL, newly rebuilt Dalmation house, 400m above sea level, near the centre of Brač island.

It is an inland village 7k from the coast, with a cooler micro climate than the coastal areas, very near the tourist attractions of Pustinja Blaca and Vidova gora, well known as health spas.

The house is a 2 story property, built with care using local stone and the finest materials.

The ground floor is 40m sq and consists of a bathroom, kitchen, dining room, boasting a superb fireplace made from local stone. There is also a covered terrace of another 40m sq.

Upstairs is a large bedroom, of 35m sq with beautiful views across the old olive groves and local farmland.

There is a large outdoor fireplace, and the garden has been designed with indigenous plants and stone, to ensure a minimum of maintenance is required, but still to be attractive and interesting.

The Seller is preparing the 'project documentation' for renovating the additional building (80 m2 ground floor + 80 m2 first floor), which is next to the existing house.

There is electricity, water, telephone and the waste is dealt with by septic tank.

The local village has a few coffee bars and shops.

There is good access to the island's airport, the ferry port and the other villages across the island.

Please contact to arrange to visit this property.
