Opis nemovitosti

This is an excellent value property, a renovation project, 4 km away from the coast, on the north side of Hvar island.

It's a terrace house and consists of two floors, with a total living area of 60m sq.

It was formerly a building used as storage (farming) with a living space on the first floor. This is 20m sq, while the ground floor is 40m sq.

The building appears in sound condition but it has not been habited for some time, so complete refurbishment is required.

The village is very quiet, as all the 'inland' villages are on the islands, and there are lovely views across the countryside and even to the sea.

The village has shops and coffee bars and caters for the local population and you would need private transport to get there.

Please contact our Hvar office for more information on this property and with any questions about the restoration work.
