### **A very rare and golden opportunity**

We are offering a large 'first line' land plot for single unit development.

It is situated next to the sea, on the mainland, where there is crystalclear water, a safe shore side, and privacy from neighbours.

The plot size is 977 m2.

The land is located in a construction zone and it has all the necessary infrastructure (water/electric etc).

Distance from the village centre (where there are all the necessary facilities: shops, restaurants, bars) is only a few kilometres, and a shoreside path allows a safe walking.

The airport is 28 km.

Please contact our Split office for more information about building costs etc. and to arrange a visit to the property.
