Immobilienbeschreibung

A large, old stone house in the very center of a small Dalmatian town.

The house has a residential area of 147 m² and is located in the center, close to all amenities. Property needs full renovation. It consists of a ground floor and two upper floors.

On the ground floor there is a room of around 20 m², previously used as a business space, that can now be arranged as an studio apartment. On the other side there is a storage room, as well as stairs leading up to the first floor.

The owner started the renovation, so the house has concrete floors and a roof.

Property requires investment, but because of its location and size it offers unlimited potential, either for living or renting.

For any additional questions, please contact our CPS office in Split.
